

## The Alternative to Liposuction!

A new technology that really melts fat and tightens skin on body and face! This non-invasive, painless, process will reduce fat off either the belly, thighs, arms, love handles, neck or back. You may lose as much as 1/2 inch of fat off the treated area, with no down time or scarring!

SignetTone™ uses ultrasound cavitation to cause tons of air bubbles around the fat cell membrane. The air bubbles cause pressure to break up the cells instantly. The fat cells then absorb and metabolize through the lymphatic system. We then use radio frequency waves (RF) to tighten the skin. You won't believe the improvement!

REAL RESULTS! You can have as many as two treatments a week to contour the body you have always wanted.

**What is Synergie®?** Over the years, many have claimed “miracle” cures for cellulite, but most yielded disappointing results – until now. Introducing Synergie, a powerful solution that provides temporary reductions in the appearance of cellulite and circumferential body measurements by using revolutionary vacuum massage technology. \*Synergie finally provides the solution millions of women have been seeking.

**Does Synergie® Work?** A 1998 study conducted by two noted plastic surgeons confirmed the efficacy of Synergie with 91% of the women treated reporting a significant reduction in the appearance of cellulite and circumferential measurements. More importantly, since Synergie was introduced in 1998, thousands of women across the country have experienced similar dramatic results from their Synergie treatments.

**Synergie® Cellulite Program** A typical Synergie treatment program consists of a series of twice-weekly sessions, followed by monthly maintenance visits. The number of treatments is customized to meet the individual's goals. Treatments last approximately 30-40 minutes.

A complete face and body treatment to reduce the appearance of cellulite, reduce inches, detox, increase circulation, increase metabolism, firm and tighten the collagen elastin in your skin. A deep soothing therapeutic massage.

## Healing Hot House and Chi

### Hot House™

By gently elevating the body temperature with "far infrared" rays, blood circulation is increased, accelerating metabolic exchange between the body and blood vessels.

The Hot House™ helps to: relieve pain, reduce inflammation, ease fibromyalgia, Crohn's Disease, irritable bowel syndrome, arthritis, stress relief and much more.

Excellent for the healing process, the arched design enhances the Hot House's thermal effect.

### The Chi Machine®

The Chi Machine® blends ancient arts with modern technology for a unique massage experience. The Chi Machine® maximizes the movement of the body in a left-to-right swinging motion, from foot to waist, chest to cervical vertebra and shoulders to head. It combines the motions of walking and swimming. Fifteen minutes of Chi therapy gives your body the oxygenation you would get from walking 10,000 steps!

Because you get your therapy in a reclined position, the weight is relieved from your spine and you will immediately notice a sense of comfort and pleasure.

Combining Hot House™ and Chi Machine® therapy will deliver great results!

The combined use of both the Chi Machine® and the Hot House™ will burn 150 calories in 15 minutes!
